

## HOW TO MAKE YOUR OWN CRAZY PATCH FABRIC

Do you keep your fabric scraps? There is a great way to join them randomly to create a beautiful and unique piece of fabric. This method is also called crumb quilting, or mile a minute. **These instructions will be pictorial.**

Iron seams flat on each piece.

Now we begin to build our fabric.  
As before join pieces of similar size  
together. Press seams flat.

When your fabric is the size you need, you can use it in your project. The effect obtained from this technique can be stunning. Use on small or large projects from small gift bags to quilts. Have fun turning those scraps into a masterpiece 😊
