

COASTER HOLDER INSTRUCTIONS

Blog Post by: Darina of [Sew Nice by Darina](#)

Our Amazing Darina has done it again, with her innovative way to make a stunning Coaster Holder

The instructions are so easy, only photos are needed

Designs used to create the Coaster Holder, are the:

5x5 [Scallop Coaster](#) (square) - 2 sides

5x7 [Rectangle Scallop Coaster](#) - 2 sides and bottom

Make the Coasters as per design instructions, with your favourite fabric, or add your own embroidery design.

In addition to pellaon/batting, Darina uses Parlane on her backing fabric. If you do not have Parlane, you could use an iron-on interfacing, which is available at most 'sewing' shops

You can leave the 'bottom' Coaster simple, as it isn't on show.

Step One - Make Coasters

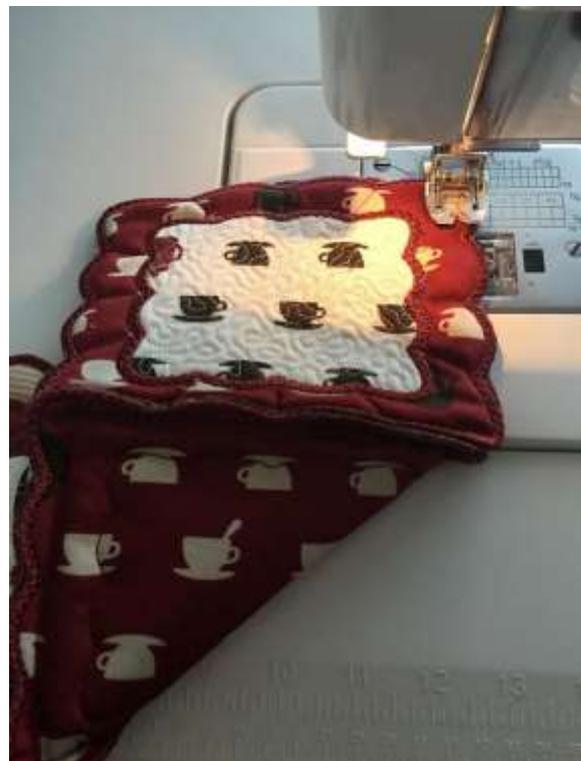

Step Two - Stitch Sides to bottom

Stitch sides to the bottom - starting and ending about 1/2 inch from each edge

Step Three - Join Sides

That's it!!

Add Coasters

Not just for Coasters!! Find a fabric to suit your project - the possibilities are endless!

Darina re-sized our Coffee Design for a couple of her Coaster Holders

I've re-sized the design (and added a Tea version)
